

Architectural Series Fire Extinguisher Cabinets

FIVE  **STAR**
Fire Protection Services Inc.

Larsen's Architectural Series is a traditional value-added line of recessed, semi-recessed, and surface-mounted fire extinguisher cabinets. These units are designed for all types of buildings and are equipped with the conventional door styles. The standard door and trim material is steel, and optional materials include both aluminum and stainless steel. All doors are 1/2" thick and open 180 degrees. All have a satin-finish pull handle with a self-adjusting roller catch and a continuous piano hinge constructed of material which matches the door and trim.

* Inside box depth is 4 1/4" when supplied with aluminum door and trim
The AL2409-5R has a 1 1/4" square trim

** Deduct 1/4" from H x W dimensions for cabinets with aluminum door and trim. This does not apply to "FS" fire-rated option

NOTE: All recessed, trimless, and semi-recessed cabinets with 2 1/4" projecting trims or less comply with ADA wall projection guidelines. If semi-recessed cabinets with 4" projecting trims cannot be mounted with their leading edges at or below 27" above the finished floor they must be specified with Larsen's recessed handle to comply with ADA wall projection guidelines. Semi-recessed cabinets with 4 1/2" return trims and all surface-mounted cabinets do not comply with ADA wall projection guidelines, unless they can be mounted with their leading edges at or below 27" above the finished floor

Medallion Series Fire Extinguisher Cabinets

Larsen's Medallion Series is an extensive line of recessed and semi-recessed cabinets with distinctive solid brass doors and trims. A #4 satin finish is standard and other polished finishes are available, if specified. This custom series is intended for use in museums, performing arts centers, historical buildings, government and financial institutions, and other special buildings where the elegance of solid brass will complement the overall design. The Medallion Series would be appropriate for either new construction or renovation projects.

As an option solid bronze doors and trims also are available. Muntz Metal also is available. Please contact factory for additional information

NOTE: Solid brass or solid bronze doors and trims are available for the Cameo Series, the Occult Series, as well as other Larsen's Fire Extinguisher Valve and Hose Cabinets. Please contact factory for additional information

NOTE: All Medallion Series cabinets with 3/2" projecting trims or less comply with ADA wall projection guidelines.

Occult Series Fire Extinguisher Cabinets

The Occult Series features an attractive door and concealed hinge which combine to give the cabinet a clean, trimless appearance. When the door is closed, it completely covers the cabinet's flange, which is on the outside of the wall surface. The Occult design also is exclusively available with Larsen's hose and valve cabinets.

Vista Series Fire Extinguisher Cabinets

The Vista Series has the same aesthetic and practical features as the Cameo. The fire extinguisher is projected into a protruding bubble, allowing for full 180-degree visibility and for installation into a shallow wall depth (4"). The fire extinguisher is supported by the manufacturer's standard bracket. The unique Vista bubble door eliminates the need for a door frame.
